

## WATERBURY

Rev. W. L. Boicourt Describes His First Trip in Aeroplane.

Rev. W. L. Boicourt writes from Lyons, France, under date of Oct. 14, as follows: "Today I had an experience too exhilarating to have missed, and for the first time since coming to France had a really good view of the Alps—that is, the grand mountains, Mt. Blanc and Jungfrau. We had no hopes of seeing them, for the day did not seem clear. A persistent fog hung on the horizon, but we climbed up to see what we could see. The first half mile didn't do any good, so we kept on climbing, nothing—passed through and distanced a number of clouds and finally, a little more than a mile and a half up, we got it. Below us was a sea of clouds, flat as a ploughed field and furrowed like one. In the east, lighted up by the afternoon sun, were the clear, white mountains, the chain of the Alps, with Mt. Blanc, the great, and Jungfrau over in Switzerland in her lonely, precipitous splendor. Never will I forget it or any other of the many sensations, 99 per cent. pleasant, of my first and probably last flight in an aeroplane.

"In my English class is a French aviator who has seen war service and who drives one of the best modern machines—a machine so stable that he says he drove once from Mulhouse to Strassbourg with his hands in his pockets. I am the 100th person that he has given the 'baptism of the air,' and his record is still 100 per cent. in safety, so I am glad for his sake that I didn't fall out. You know the things turn up sideways when they turn around. I didn't figure out how funny you'd feel sitting in the middle with one wing hanging down and the other one sticking up. The first time he did that I momentarily forgot my strong auto suggestion that whatever happened I wasn't going to do so silly and useless a thing as to be afraid. And then he straightened up and turned the other wing down.

"I sat in a barrel-like thing with some good iron handles to hold to, and I leaned over to look down. You can see better when the machine turns over that way and every moment was interesting. Seeing I wasn't afraid (I bluffed him, and then that bluffed myself and so I wasn't afraid) he did some of his maneuvers of the sort that he practices each time he makes an ascent.

The blooming thing bucked like a broncho, snorted and reared, turned over and slid down backwards and sideways to escape an imaginary German supped to be shooting at us from

the rear. The pilot looked at me and I smiled and detached a hand long enough to wave it at him—and he did it again a couple of times. We were up high enough so that it was safe. That sounds like a paradox, but it isn't. Close to the ground one could not dare do those tricks, but if one lost control a mile or two high, there is lots of time to straighten up before hitting the ground.

"Our machine was a Samson, 250-horsepower motor, a machine that has seen actual war service. I was given a fur-lined suit and a wool cap that covered all but my eyes and nose. Heavy goggles gave protection from the terrific wind of the propeller and the speed of flight. The increasing distance was all that told me that we had left the ground. We were in the air 24 minutes, but it did not seem more than 15, so wonderful was the panorama spread out before me. The neat little plowed fields interspersed with green, the little play horses and cattle which slowly disappeared as we ascended to a mile or so. Then the checkerboard fields and tiny houses in the corners of little walls or arranged in funny lines called streets. The big factories were nothing but rows of tiled roofs, the Rhone a pretty ribbon, and the bridges miniature copies of the real things. I could recognize them by their forms and where they were marked by taller trees which have not been cut, while all the rest have been taken for fuel.

"It was on coming back from Lyon that we saw the Alps. Monsieur Sire was amusing himself and me by chasing little clouds and diving into them, and then he pointed to the east and there they were—the Alps that I had so hoped to see. Then in the program came the funny stunts I have spoken of and soon the fields grew larger and by degrees horses and cattle and even human creatures could be seen. We circled over the rare track at Villersanne and came back on a slant to the aviation field, where my skillful pilot landed without a bump. Once on terra firma, he ran the machine along the ground until it stood in front of its own stall on the aerodrome. Then I climbed out, happy as Jane was when she has her first flight."

News of the death of Mrs. L. H. Whitney's mother in Troy, N. Y., has been received. Mrs. Whitney was called home about two weeks ago by her illness.

A. M. Ashline and family and mother of Rouses Point have been guests of Mr. and Mrs. Eugene Ashline.

Mr. and Mrs. E. J. Long of Fayston were guests for a few days of Mrs. J. E. Crockett recently.

Trapping is quite the style about here now and some good fur is being secured.

Gov. Clement Signs Extradition Papers.

Governor Clement has signed papers asking for the extradition of two persons, the first of whom is O. F. Stetson, wanted in Windham county for selling investment contrary to law. Stetson is now in custody in Providence, R. I., and State's Attorney E. W. Gibson wants to bring him back to Brattleboro for trial on the above charge. The second is for extradition of Victor Rance, wanted in Brattleboro on the charge of grand larceny, and who is now held in Boston.

## EAST CALAIS

Maynard King has returned from Montpelier, where he has been serving as jurymen on the Long case.

Miss Sylvia Bliss returned Friday from Barre, where she has been visiting the past week.

Nathan and Clarabel Brown visited their parents, Mr. and Mrs. Dan Brown, over Sunday.

Nurse Drennan has returned from Mr. Cline's, where she has been nursing for the past four weeks.

Mrs. George Guernsey and children have returned to their home in Montpelier, after spending a week at O. W. Guernsey's.

W. J. Coates was in Barre Saturday, his son, John, a student at Goddard seminary, accompanying him home.

George E. Sanders was a business visitor in Montpelier and Barre on Saturday.

Philip Drennan and friend from Goddard seminary visited at O. W. Guernsey's over the week end.

Mrs. I. W. Gray was in Plainfield on Sunday.

Mrs. Myrtle Drennan was in Barre the last of the week to see her son, who is a student at Goddard seminary.

Harvey Pike and family of Hardwick were at F. E. Marsie's on Sunday.

Mr. and Mrs. Robert Lawrence of Montpelier were in town Sunday.

A buckboard, winter blanket, halter, hitch rope and other articles were taken from the barn of L. A. Jones one night last week. If they are returned soon it will save the ones who took them some trouble.

Mr. and Mrs. C. R. Dwinell were in Montpelier on Sunday to attend the funeral of Mr. Hammond, a cousin of Mrs. Dwinell.

Mrs. D. R. Brown was in Woodbury Center on business on Monday.

Forrest Gray was in Montpelier the first of the week.

## BETHEL

F. R. Jenney has moved his family to White River Junction, where he is employed.

Jeremiah Langevin has sold his farm to C. H. Goss, who will operate it in connection with the Goss farm.

Mrs. Ruth Dickey and Miss Marjorie Stockwell of Burlington, formerly of this place, were guests last week at E. P. Fisher's.

A valuable cow belonging to Pearl M. Savage was found near the road in a helpless condition Monday afternoon.

## AMUSEMENT NOTES

### "Daddy Long Legs"

It is doubtful if ever the people of this city have been wrought up to such a state of enthusiasm over a moving picture production as they are now in the coming of Mary Pickford's latest

Mary Pickford in "Daddy Long Legs"

triumph "Daddy Long Legs," which begins a two-day engagement at the Park theatre to-morrow.

Of the many plays of the screen in which Mary Pickford has appeared, it is said that none have been so well adapted to her bewitching talents as this, the screen version of Jean Webster's famous novel of the same name.

having apparently been hit by an automobile whose driver had taken no pains to report the collision. The Savage meadow lies on both sides of a long stretch of straight highway and the Savage herd was enjoying fall feed.

Willis C. Whittaker has sold his farm to Lawrence R. Kelley of Littleton, N. H., who buys for occupancy.

## WELLS RIVER

Quiet Home Wedding at Home of Bride, Miss Annie Miller.

Miss Annie Miller and Dr. Cleland Sargent were quietly married at the home of the bride's parents Wednesday afternoon in the presence of immediate relatives. Rev. Donald Fraser officiated. A reception followed the marriage, after which the young couple left for a short trip, when they will be at home to their many friends in Orwell. Mrs. Sargent is a graduate of our high school and also spent two years in the Mary Fletcher hospital in Burlington. Dr. Sargent is a graduate of the medical department of U. V. M. and was for some time one of the house physicians at the Mary Fletcher, located only lately in Orwell. The only guests present outside of the immediate families were Mrs. Warden, Mr. and Mrs. D. G. Farwell and Miss Lillian Moore, all of Wells River.

The funeral of J. A. George, who died Sunday evening at 5:30, was held Tuesday at 1:30 p. m. The funeral services were conducted by Col. Preston post of the G. A. R. Interment was in the Wells River cemetery.

The Wells River Study club Oct. 31 gave a Halloween party to all the scholars of the public schools in the village hall. The first part of the evening was spent in games, both for the youngsters and the older ones, while the latter part of the evening was taken up with dancing.

Roswell Sherwin and wife, John Peach and wife, Drs. Perry and Woodman, M. F. Buck, J. F. Hale, D. G. Farwell, R. E. Farwell and wife and Sam Hutehins and wife were among those who saw Colgate play Dartmouth off its feet the first two periods, only to have Dartmouth turn in the final minutes of play and tie the score with a touchdown on a blocked kick.

Last Friday night many from here attended the Halloween dance at Woodville, while a large number journeyed to South Ryegate for the same purpose.

Newbury welcomes home her returned soldiers Nov. 12 with a supper, entertainment and dance in village hall, Wells River. While not as elaborate as many, yet only the best has been secured. A supper served by the ladies in the dining room is free to the soldiers and invited friends. The entertainment following is furnished by the White entertainment bureau of Boston and has been given several times in Massachusetts for this purpose, a particularly strong testimonial coming from Springfield. A dance follows, music by Nevers 2d regiment orchestra of Concord, N. H., the finest in this section. There is no admission charge to anyone. All boys who have seen service in Uncle Sam's forces are invited.

After several days the water is again running on Water street, having been turned off for repairs on the main where it crosses the river.

Bills are out announcing Woodville's celebration of armistice day, Nov. 11. This event is vouchered for by the Woodville Post. In the morning is a parade of autos, floats, etc. Route as follows: Woodville, North Haverhill, Newbury, Wells River, Woodville. Start in front of opera house. In the afternoon bazaar in opera hall, showing many relics and other things pertaining to the world war. Admission

50c. In the evening an entertainment furnished by the White entertainment bureau, followed by a victory ball. Admission, \$1 per couple.

The Episcopal church supper served by the men in the parish house, Woodville, was a big drawing card for many from this side.

A surprise party was tendered to Mrs. Merton Miller at the home of Mrs. F. A. Lyons last Wednesday night when nearly 50 gathered to give her a shower of household utensils and other things of a useful nature, all of which were brought in by young James George, who, following in the footsteps of his father, has entered the express

business at the age of three years. Following games were played and refreshments served, the party disbanding about midnight.

Mr. Winship went to Boston last Friday, where he attended an annual banquet given by the traveling men's association. He returned Sunday evening. He reported the affair a very dry time but still enjoyable.

Lillian Marcy of White River Junction is visiting with friends in town. John Martin was sent to Claremont, N. H., last Saturday night to take inventory at the freight office. On arriving, he found that he had been sent through error, as a man from Boston

had already done the work. Therefore he went to Newport, where he visited friends, returning Monday afternoon.

### Self-Defense.

Striker—We got them scabs to quit work and the factory's stopped again. Wife—I hope you didn't use violence. Striker—Violence? No, we only defended ourselves when they attacked us for throwing rocks at them.—Boston Transcript.

So long as there's sickness, suffering, disaster, the Red Cross must stand by!

## Will Nuxated Iron Help Men Of Today Gain Strength And Endurance Like Athletes of Old?

Physician Says "Yes"—Cites Case of

### Jack Dempsey, Heavyweight Champion of the World SUPERMAN OF THE AGE

Who Used Nuxated Iron as a Part of the Training Which Gave Him Such Physical Development That He Was Able To Whip The Mighty Jess Willard—

To every man who lacks physical strength and energy there comes a longing at times to possess the power and endurance of an athlete, yet they go on struggling through life weak, nervous and run-down, when in reality their trouble may be nothing more than lack of sufficient iron in the blood.

Had they not kept their blood rich in iron the athletes of old might never have achieved such fame, is the opinion of Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital, who believes that modern men who are fatigued out by worry, work and other strains might readily build up their strength, energy and endurance by increasing the supply of iron in their blood.

As an example of the superb physical condition that may be obtained by a man of today who follows proper methods of living and who keeps his blood filled with strengthening iron, Dr. Sullivan cites the case of Jack Dempsey, who used Nuxated Iron as a part of the training which gave him such marvelous development that he is now recognized as the Superman of the Age and perhaps the superior of any famous athlete of ancient times. In connection with his use of Nuxated Iron, Dempsey says: "Nuxated Iron put added power behind my punch and helped me to accomplish what I did at Toledo. From the results in my own case, where the possession of super endurance is necessary, I feel that I am in a position to strongly recommend Nuxated Iron to every man and woman who wants to build greater strength, energy and power."

In commenting on the foregoing statement made by Dempsey, Dr. Sullivan says: "It should occur to every thinking person that if a man as physically fit as Dempsey should consider it advisable to take Nuxated Iron how much more important it is for the average man or woman to see that there is no lack of iron in the blood. In my opinion, the man of today who wants to be strong, sturdy and successful must either live more as did the athletes of old or else supply the iron deficiency in their blood by taking some form of aseptic iron—Nuxated Iron. I have used Nuxated Iron in my practice and I know of nothing more effective for building

up the system and increasing the red blood has won the day simply because he knew the secret of great strength and endurance, which comes from having plenty of iron in the blood. While many another has gone down to defeat, Dempsey has won because he knew the secret of great strength and endurance, which comes from having plenty of iron in the blood. While many another has gone down to defeat, Dempsey has won because he knew the secret of great strength and endurance, which comes from having plenty of iron in the blood. While many another has gone down to defeat, Dempsey has won because he knew the secret of great strength and endurance, which comes from having plenty of iron in the blood.

If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times per day, after meals, for two weeks. Then test your strength again and see for yourself how much you have gained. Many an athlete or prize fighter

**Sure Relief**

**BELL-ANS**  
INDIGESTION  
25 CENTS

6 BELL-ANS  
Hot water  
Sure Relief

**BELL-ANS**  
FOR INDIGESTION

**Stuffy with Cold**  
RELIEF WITHOUT QUININE

Quinine may soothe up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken usually breaks up a severe cold and ends all gripe misery. The very first dose opens your clogged-up nostrils and the air passages of the head; stops nose running; relieves the headache, dullness, fever, sneezing, soreness and stiffness.

"Pape's Cold Compound" is the quickest, surest relief known and costs only a few cents at drug stores. It acts without assistance, tastes nice, no quinine.—Adv.

## PARK THEATRE Barre, Vt. Two Days COMMENCING Thursday, Nov. 6

Matinees at 2:15, Evenings at 7:30

Special, Extra—School children's matinee at 4:15 Friday

MATINEE PRICES: Children 25c, Adults 35c; NIGHT PRICES: Children 25c, Balcony 35c, Orchestra 50c—Tax in addition. School Children's Matinee Friday at 4:15 o'clock. Price, 20c.
